

A Medicine for Women

For Forty Years Lydia E. Pinkham's Vegetable Compound has Relieved the Sufferings of Women.

It hardly seems possible that there is a woman in this country who continues to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial after all the evidence that is continually being published, proving beyond contradiction that this grand old medicine has relieved more suffering among women than any other medicine in the world.

Mrs. Kieso Cured After Seven Month's Illness.

It is—Mrs. KARL A. KIESO, 596 North Ave., Aurora, Ill.

Could Hardly Get Off Her Bed.

Cincinnati, Ohio.—"I want you to know the good Lydia E. Pinkham's Vegetable Compound has done for me. I was in such bad health from female troubles that I could hardly get off my bed. I had been doctoring for a long time and my mother said, 'I want you to try Lydia E. Pinkham's Vegetable Compound.' So I did, and it has certainly made me a well woman. I am able to do my housework and am so happy as I never expected to go around the way I do again, and I want others to know what Lydia E. Pinkham's Vegetable Compound has done for me."—Mrs. JOSEPH CORNER, 1688 Harrison Ave., Fairmount, Cincinnati, Ohio.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

ALMA RUEBENS HELPS "SAMMIES."

Alma Ruebens is planning to do her share toward helping the Sammies at the front and the boys in olive drab now at the concentration camps throughout the country. She has given a handsome miniature yacht to the Los Angeles branch of the Red Cross and this toy racer is to be auctioned off sometime in November, the proceeds to swell the fund for America's soldiers. The yacht, although hardly four feet long, is a perfect replica of its higher sisters, from mahogany furnishings to tiny anchor.

Bob LaFollette is the Judas Iscariot of the United States Senate.

Your Telephone A Money Maker!

If busy farmers, who are selling their stock and produce at good prices, were to be deprived of their telephone, they would readily place the value of the instrument at anywhere from \$5.00 to \$35.00 a day.

You will find the secret of the prosperous farmer's success lies in his prompt telephone communication with the local and city markets.

Our new Directory will go to press soon and it is our endeavor to supply you continuously good telephone service day and night. Our rates are reasonable.

U-BOATS NOW USE THE SMOKE SCREEN DEVICE.

New German devices for aiding U-boat frightfulness are reported by passengers on an American liner recently arrived at New York from England.

One is the use of smoke screen in which the submarine may conceal itself while attacking, escaping or submerging. The smoke screen has been used for many months by battleships, destroyers and merchantmen. Its first use by a submarine was reported in the warnings of a U-boat off the Atlantic coast.

The other device is the use of mirrored periscopes. By coating them with silver the periscopes reflect the surrounding water and become invisible a couple of hundred yards away. It is believed this explains why survivors of several ships lately sunk saw no evidence of a submarine before or after the attack.

HAYTI ATTESTS APPROPRIATION OF AMERICA'S HELP.

Grateful for what the United States has done for it under the recent treaty, the Republic of Hayti, it was announced by bankers recently, would add about 70,000,000 pounds of sugar to this country's supply next season. This supply will be the first year's output of the Haytian-American Corporation, formed immediately after the American protectorate was inaugurated, insuring protection for foreign capital. The corporation expected to ship here only about 20,000,000 pounds of sugar, but to meet desire of the United States Government for increased food supplies, the company has found it possible to more than treble its shipments to the United States.

VIRGINIA UNIVERSITY SENDS MANY ALUMNI TO WAR.

The University of Virginia has sent approximately 15 per cent. of its alumni and students into various branches of war service. Lewis D. Creshaw, general alumni secretary, says that according to his records this is a conservative estimate and that when final reports are obtained will probably be much greater. Those already on file are distributed as follows: Medical Officers' Reserve Corps, 250; Reserve Officers' training camp, 244; base hospital, 150; United States Ambulance Corps, 96; regular army, 36; navy, 20; aviation, 18; coast patrol, 14; industrial and munition works, 13; marines, 8; English army, 2; miscellaneous, 81.

REMEMBER THE SOLDIERS ON CHRISTMAS.

Fifty thousand Christmas bags are needed for our men in the service. Friends and relatives will of course remember the boys from home, but the Navy League wants to be sure that each man will have a package tied up in holiday style for Christmas Day. The bags are 13x10 inches made of cretonne or other durable material, with ribbon draw strings. In each bag five to ten articles should be placed. The ten-cent store around the corner has articles for sale that the soldier in France can not get at any price, so the Good Cheer bag need not be expensive. Chewing gum, khaki colored handkerchiefs, a folding cap, tobacco, games, puzzles, pocket editions of good books, malted milk tablets, and an easy French grammar are a few of the possibilities suggested by the Navy League. Ten thousand bags are now being made, but in order to reach the soldiers by Christmas every bag must be in at the headquarters of the woman's section of the Navy League, Washington, D. C., before November first.

MRS. SMITH RECOMMENDS CHAMBERLAIN'S TABLETS.

"I have had more or less stomach trouble for eight or ten years," writes Mrs. G. H. Smith, Brewerton, N. Y. "When suffering from attacks of indigestion and heaviness after eating, one or two of Chamberlain's Tablets have always relieved me. I have also found them a pleasant laxative." These tablets tone up the stomach and enable it to perform its functions naturally. If you are troubled with indigestion give them a trial, get well and stay well.

SURF COASTING.

The sport of surf coasting reached this country from Hawaii, and promises in a few years to become a popular sport. In California it was much practiced this past summer, while a few surfboards might be seen on the New York beaches. American manufacturers have put on the market a special surf board which is a considerable improvement over the plank used by the Hawaiians, having an air chamber at one end. All we lack now is the Hawaiian skill in riding the big breakers standing up.

CONSIDER CONCRETE

No matter what you are building, consider concrete. Properly constructed concrete buildings are waterproof, weatherproof, ratproof, fireproof and practically timeproof.

The damage done by rats and the loss by fire are of themselves enough to bring concrete in for consideration whenever a farm building is to be erected. In the long run, it is cheaper to build for permanence and to guarantee against fire loss and depredations of vermin than to build at less cost and run the risks.

Consider concrete when you build anything from pig pen to residence. —Southern Agriculturist.

Heap big mileage! Built-In!

If you could dissect a SAVAGE you'd realize that "Heap big mileage" is built into it during every minute of its manufacture.

Highest grade rubber and fabric, perfectly balanced design, most careful workmanship, full size.

A tough road-gripping tread—neither so heavy as to produce stiffness, nor so light as to give insufficient protection to the carcass. Cushion of high-grade resilient rubber—absorbs the road shocks. Sidewall specially shaped to distribute flexing—will not crack.

And the carcass—finest Sea Island cotton, long fibre, tough, triple tested, built up layer by layer into the strongest carcass that can be made.

High mileage, low cost per mile. Sold from factory to you through our own distributors. Watch for the red Savage sign.

SAVAGE GRAFINITE TUBES

The only tubes that have graphitic vulcanized into the surface. Prevents deterioration, sticking, friction and heating. Makes soapstone unnecessary. Lengthens life of tube.

WIN THE WAR BY HELPING TO SAVE FOOD!

Miss Lida E. Gardner, State organizer of Community Leagues and Parent-Teacher Associations, has sent out letters to 325 school trustees, teachers and heads of the parent-teacher bodies in an effort to mobilize the resources of all the community leagues in Kentucky for the purpose of furthering the campaign to eliminate waste. V. O. Gilbert, State Superintendent of Schools, has written to county superintendents requesting them to have teachers impress upon their pupils the importance of food-saving at this time and through them to reach the parents. The children will be urged to request their mothers to sign the pledge cards and to repeat the request daily during the week of the campaign.

SOUR STOMACH.

Eat slowly, masticate your food thoroughly, abstain from meat for a few days and in most cases the sour stomach will disappear. If it does not, take one of Chamberlain's Tablets immediately after supper. Red meats are most likely to cause sour stomach and you may find it best to cut them out.

SAVE YOUR SHOES.

Leather is one of the materials which must be used economically in order that the army may have shoes, harness, saddles and puttees. The Department of Agriculture explains that the civilian can conserve leather by making his shoes last as long as possible. Greasing them when the leather gets hard and dry; wearing heel plates or otherwise preventing run-over heels, which ruin the shape of a shoe, and having them half-soled when practicable will cut the family shoe bill, and help the government keep our soldiers properly shod.

LITTLE MEN BEST.

Tests carried on at Princeton University have proved that the man who weighs about a hundred and forty pounds and is about five feet and six or seven inches high is really of the best physical type. He can do more in proportion to his size than a large man, and has more endurance. Likewise the brunette is apt to have more endurance than the blond.

MORE CONCRETE USED.

Steel is going up, and concrete, as a result, is coming into wider use. Railway bridges, for example, which used always to be of steel, are now often of concrete. A beautiful concrete railway bridge is being built across the James River at Richmond, Va., and it is much prettier than a steel bridge. For like reasons, concrete is replacing wood in mining structural work, where it has the great advantage of being fireproof.

Stop the waste of manure. Carl Vrooman says that over a billion dollars' worth of manure is wasted in this country every year. Part of this waste is right on your farm.

Rengo Belt Reducing Corsets Most Economical

It is the height of economy to wear Rengo Belt corsets—they last.

Most reducing corsets have their style lines only when they are new. Rengo Belt corsets retain their lines until they are worn out, and greatest comfort comes after the first wear. This is the reason why Rengo Belt corsets have gathered new admirers each year until they have become famous.

**Economical
Satisfying
Most Comfortable**

No woman asks more—some have found all this and more—mostly they are women who wear Rengo Belt corsets. Models for every figure—some with "steelastic" webbing for greater freedom—all with double watch spring boning.
